## Editing Miscellaneous Product Prices in the Online Store

Miscellaneous product prices for services and other non-tangible items are now editable in iWeb.

**Note:** Miscellaneous product prices are not editable eWeb.

# Issues Addressed in Abila netFORUM Pro 2015.2

The following issues are addressed in Build 2015.2.

**Tip:** Use the number associated with each issue to look up the issue in the Abila **Support Portal**.

## Accounting

Issue #	Description
17588	Refunds sent through PayPal Express now correctly reflect the cancellation fee. (2015.1 hotfix)
16628	Percentage based volume discounts now only apply to items where quantity based qualifiers have been met and not to all items in the shopping cart.
10344	Cancelling an invoice with a discount now reverses the General Ledger entry for the discount.
11565	Voided over-payments are now removed as credit from customers account after processing a refund. (2015.1 hotfix)
10833	Cancelling an invoice, charging a cancellation fee, and crediting the credit card no longer creates a credit or reduces available credit.

---

## Administration

Issue #	Description
15506	Tab Order for Design Demographics can now be edited using Microsoft Internet Explorer 9.
17562	Fulfillment of subscription issues no longer fail.
17860	Adding new users to entities with Security Groups now allows access to the Query Tool after adding the ClientQuery Group Membership.
17872	Users are now correctly added to Security Groups.

## CRM

Issue #	Description
10396	Linking an organization's phone or fax number to an individual now displays the number set as the primary number.
16474	Members no longer appear multiple times in the Individual Directory.
17713	The CRM Merge and Purge process no longer appears to purge all records selected for processing.
13126	City names are no longer incorrectly abbreviated when adding or editing address fields when AVS is enabled.
12605	An organization with a linked individual now keeps a modified address when AVS is enabled using the Override Address Validation option.
12097	A blank field can no longer display at the top of a multi-select demographic for individuals after manual formatting.
14464	Free text now formats correctly when setting up and designing demographics.

## E-Commerce

Issue #	Description
17966	Response time after clicking 'Go Shopping' has been greatly improved.
8937	The mbr_expire_date merge field has been corrected to use the current membership purchase instead of the previous membership purchase for expiration date purposes.

## Events

Issue #	Description
12876	A guest is no longer redirected to the event registration wizard after the login prompt when adding a session to a shopping cart if a previous event registration already exists.
15839	Ticketed session capacity now calculates correctly when capacity is changed after an initial registration.
14629	Demographic fields now display in correct order in Event confirmation emails.
10317	The Guests Only Registration Fee now displays correctly when shopping for an event and selecting to bring a guest.
11362	The 'Ticketed' check box no longer appears on the session page for free events.
17754	Layouts for event confirmations now have better formatting.

## eWeb

Issue #	Description
17453	Individuals receiving benefits from an organization receiving benefits from a parent organization now display in the Individual Directory when EwebIndDirectoryNonMembersDisplayEnabled is not enabled.
13117	Updating and saving an organization's profile information now redirects back to the organization page instead of to an individual's My Information page.
16977	Organizations added during New Visitor Registration now display correctly in the CRM

---

Issue #	Description
	module.
16484	A message now displays when attempting to add an individual that already exists in netFORUM Pro.

## Fundraising

Issue #	Description
16904	All fundraising tasks are now performed from the Fundraising module and are no longer available in the Administration module.

## General

Issue #	Description
16459	The 'RedWhiteBlack' theme in eWeb no longer has excess spacing.
17798	Adding an image to an E-Marketing message template now uses the correct URL when inserting the image.
17997	Amounts collected and distributed to multiple charge codes now correctly round to four decimal places.

## Help

Issue #	Description
17349	The online help topic, 'Setting up Certification Program Fees' no longer references an Available Online check box.
17856	The online help topic 'Creating a Twitter App for Integration with netFORUM' now lists the correct URL for creation of the application.
12433	The online help topic 'Setting up Automatic Notification of Customer Transactions' now explains how to change the EwebTransactionStaffNotificationAddressDetails system option through the eMarketing module.

## Reports

Issue #	Description
10333	The A/R Transaction by Charge Code report now correctly reports discounts.
17120	The A/R Transaction by Charge Code report now correctly shows correct values in the Amt, to Ch. Code column and Balance Due column when an invoice is paid in full.
12641	The Exhibitor Booth report now correctly reports cancelled booths.
12766	The A/R Transaction report now shows correct balances when payment is made with credit (full or partial) and cancelled, and another payment is added.
16483	The Invoice with Balance Due report now shows correct balances for quantities of product that are more than one.
16810	The Gift Detail Report by Date Range report no longer shows cancelled donations.
16873	The A/R Aging by Charge Code report now correctly shows deductions for discounts.
13460	The Cash Receipts Report by Batch report now correctly shows the revenue account information when run with automatic batching.
12651	The A/R Aging Detail by Customer report now correctly takes cancelled payments into account when calculating total amounts owed.
